

# Horton Hears a Who!

## Week Two -2/14/21

### “Everyone is Important”

In the Jungle of Nool, Horton the elephant hears a faint voice on a passing clover. He realizes there are very small people on the clover who need help, so he puts the clover in a safe place. Watch Horton discover Whoville [here](#).

Horton realizes that he is now responsible for all the life in Whoville. He realizes that size does not matter—whether you’re as big as an elephant or as small as a speck, your life has meaning. When the clover is lost in a large field of clover, Horton takes action. The people of Whoville may be tiny, but just like the rest of us, they have lives that matter. Watch as Horton searches for the missing clover [here](#).

**What is the price of two sparrows—one copper coin? But not a single sparrow can fall to the ground without God knowing it. And the very hairs on your head are all numbered. So don’t be afraid; you are more valuable to God than a whole flock of sparrows. Matthew 10:29-31**

- What do you think it means that God knows all the hairs on your head?

The Bible verses above remind us of God’s promise of love and care, not only for every one of God’s creatures but even for every hair on their heads. If God knows every single sparrow in the sky, and every single hair on our heads, that means there is nothing too great or too small for God to care about. God cares for and loves children and adults alike. To God everyone, no matter their size or age, is precious and worthy of God’s attention.

### **Prayer**

Holy God, we give you thanks that you see even the smallest in the world and care for them. Help us to hear other’s calls. Amen.

## This Week's Craft

### Clover

Take the packet marked “flower” out of your Sunday School Bag. You should have a paper cup, a Styrofoam square, 4 pipe cleaners, 4 pom-poms, a label, and some shredded paper. Extra materials needed are liquid glue and a piece of tape.

- Place a dot of glue on one pom-pom and place on one pipe cleaner. Hold in place until it is dry enough to stay. Repeat with remaining pipe cleaners and pom-poms.
- Tape the label around one of the flower stems.
- Push clovers into the Styrofoam however you would like.
- Place Styrofoam with clovers into cup.
- Place shredded paper on top of Styrofoam in cup.

Treat your clovers with care as you never know how many Whos may live there!!!
